hi capt lim
i have some questions regarding the fly by wire control system. 1. how does the fly by wire system of the boeing 777 differs from the standard airbus fly by wire system, ethiopian pilots fought the boeing
737 max flight controls - the preliminary investigation into the crash of Ethiopian Airlines Flight 302 reveals that when a sensor failed immediately on takeoff, the pilots had to fight against Boeing's MCAS system on the, Boeing 737 MAX what went wrong BBC News - pilots of the crashed Ethiopian Airlines Boeing 737 MAX were unable to prevent the plane repeatedly nosediving despite following procedures. An initial report has found the captain and first, lack of redundancies on Boeing 737 MAX system baffles some - as Boeing designed an automated safety system for the 737 MAX the company built it to potentially activate based on the reading of a single sensor that decision has baffled, the real reason Boeing's new plane crashed twice videos - dumbfounding is why the MCAS only takes data from 1 angle of attack sensor we have been flying airplanes since the a better question is why did Boeing decide that the AoA disagreement sensor or protocol or whatever it is was an optional thing to put on the plane and why did they upcharge the airlines to have that in their plane, flight1 com flight simulator add ons for FSX and Prepar3D - ultimate airliners the super 80 professional simulates the latest cockpit upgrade given to the MD 80 series it includes a full electronic flight deck EFD that includes a full EFIS with FMS TCAS systems display panel engine display panel and many more advanced systems
